Little Things Aren't Little... When You're Little  
By Mark Burrows  
Illustrated by Alison Davis Lyne  
Life is all about perspective, and this book investigates the world from the unique point of view of young children. Adults may see many things in life as small, such as puppies, street blocks, and excitations, but to young children, those little things aren't small at all. This book, told in humorous rhyme from the perspective of children, helps remind us all in what a big world we live.
